A Note From The Pres

What an exceptional event Tim and Sandy hosted. The Beater Rally was a hoot. My brother Ed, who we all know is older, was so impressed with the camaraderie and the amount of work that was put into the event.

As we begin the Corvette season, I would ask that as many of you that can help with the Auto Cross please do so. It is one of our major moneymakers for the year, and it would be nice to let the other clubs that attend see what a wonderful group we are. Please let Claude or Tom know if you can help. See you at the Ride & Dine this Saturday.

Jeff

BEATER RALLY

Thank you, Tim, Sandy and Clare for the refreshments at your home, a well planned Beater Rally and arrangements for dinner at the American Legion in La Crescent. A fun day was enjoyed by the drivers and navigators of five cars. Robbie Lieder and friends will be doing the Beater Rally next year. (Tim was so excited he left without paying his dinner bill at the Legion.)

This is the time of year to select summer events and outings with a Corvette. The NCCC Midwest Region has a full calendar of events sponsored by nearly 30 associated Corvette Clubs in Illinois, Wisconsin, and Minnesota. You may find the schedule posted at www.mwregion.com or contact me to see the event flyers issued by the host club.

If you are interested in attending a Corvette show/swap/auction event or Corvette drive-out trip this summer, please contact one of our club officers. We have members that will be attending various events around the country, and can provide detailed information. Please don't forget our monthly "Ride-&-Dines". Our members take turns hosting a monthly outing to an area restaurant, usually including a pleasant countryside drive.

There is a swelling fever over the arrival of the new C6 model Corvette for 2005. Many Corvette owners have already made deposits with dealerships for the new model. Why? The new model will include a more powerful engine, new look, and an improved interior. One noticeable change will be that flip-up headlights found on all Corvettes since 1963 are being replaced with fixed headlights. Only coupes will be built initially, and convertibles will become available by late fall of 2004. For more information, contact your Chevrolet dealer or the Chevrolet web site. Chevrolet intends to announce pricing during June, 2004.
